why

# PERFORMANCE PLASTICS

Commercial bathroom partitions are placed in harsh, high traffic environments that tend to be damp, making the materials susceptible to mold, mildew and rust. It is also common to encounter graffiti and vandalism in these public spaces.

**It is important to invest in a worry-free product that will save you time and money.**

Solid plastic partitions are built to last, down to every detail. Graffiti can be easily wiped clean with a common non-abrasive cleaner, and since Scranton Products performance plastic is formulated with a solid color throughout, scratches are difficult to see. Compared to other traditional material types, performance plastic has a greater resistance to impacts providing you with a low maintenance restroom that will look great for years.

Aria Partitions – Color: White, Texture: Orange Peel  
Door Engraving: Exclusive 5400, Side Panel Engraving: Diamond, Height: 96"

Patent Pending

## NO PAINTING

Scranton Products partitions are solid color throughout and will never require painting.

## EASY GRAFFITI REMOVAL

Graffiti can be easily wiped clean with a common, non-abrasive cleaner.

## CLEANER, HEALTHIER RESTROOMS

Impermeable to moisture, solid plastic's non-porous surface does not support the growth of mold and mildew and will never rust.

## NATURALLY GERM & VIRAL RESISTANT

Scranton Products partitions showed a significant decrease in Influenza, Human rhinovirus and Human Coronavirus viral activity within 24hrs of exposure\*. Scranton Products partitions are naturally resistant to common bacteria including MRSA and a.baumannii which can cause Pneumonia\*. According to testing, Scranton Products partitions are highly effective at reducing MRSA and a.baumannii. Testing has shown that after 24 hours, a significant amount of MRSA died off the surface of solid plastic without the use of cleaning solutions or antimicrobial additives.

ISO 21702 Testing done by SITU for Influenza A virus (H1N1), Human rhinovirus 37 (Strain 151-1) and Human Coronavirus (229E).

# SUPERIOR STRENGTH & LOW MAINTENANCE

Hiny Hiders Partitions – Color: Mahogany, Texture: Orange Peel, Hardware: Stealth Integral Hinge  
Configuration: Floor To Ceiling, Height: 55" Standard Panels & Doors

#### FLOOR MOUNTED OVERHEAD BRACED

This classic style provides the most economical solution for high traffic areas, where durability is a top priority. Easy installation in new construction or existing buildings makes this a versatile style option.

#### FLOOR TO CEILING

This style provides an extra measure of stability in restrooms. Maximum rigidity is achieved when structural supports are present in the ceiling.

120" Maximum Ceiling Height.

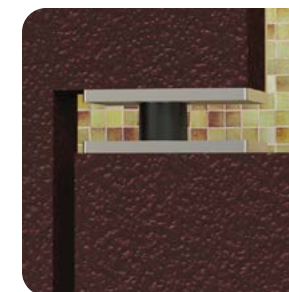

#### CEILING HUNG

This style offers an area free from obstruction to allow for fast and easy maintenance. The system requires structural supports in the ceiling for maximum rigidity.

120" Maximum Ceiling Height.

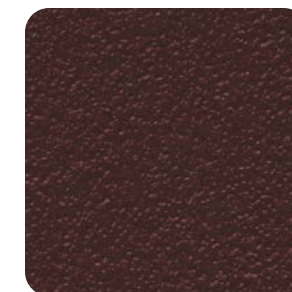

#### STEALTH INTEGRAL HINGE

This hinge is a perfect hardware match for a space seeking a minimal design aesthetic.

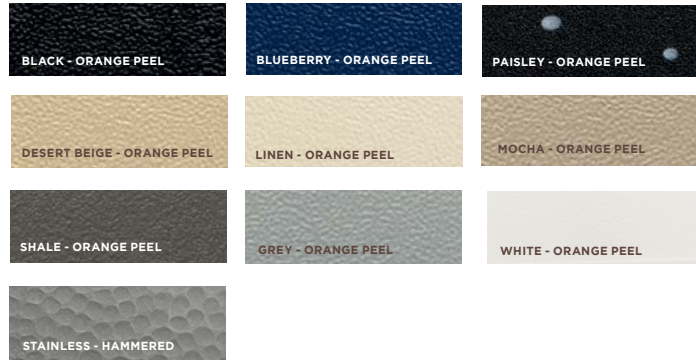

#### ORANGE PEEL TEXTURE

This texture pairs great with any color choice and will compliment any environment.

# ADDITIONAL PRODUCT OFFERINGS

## URINAL SCREENS & PANELASTERS

Our urinal screens are designed to withstand use and abuse in public restrooms. Scranton Products solid performance plastic materials clean easily, making them the ideal option. Our privacy and urinal screens are available in four easy to maintain mounting configurations.

## DRESSING COMPARTMENTS

Our dressing compartments come in a wide variety of colors and textures providing many design options to compliment your décor. Scranton Products performance plastic resists impacts, scratches, corrosion and graffiti which means customers save time, hassle and maintenance costs.

Our dressing compartments feature an integrated head rail designed to accommodate optional curtain hooks and curtains\* eliminating the need for additional curtain rods.

*\*PVC-free shower curtain*

## SHOWER CUBICLES

Scranton Products manufactures shower cubicles that are designed to perform in public shower areas. Solid plastic has no absorption of water and resists mold, mildew and odors. It is easy to clean and resists soap stains, making it the ideal material for your shower application.

Our shower cubicles feature an integrated head rail designed to accommodate optional curtain hooks and curtains\*, eliminating the need for additional curtain rods.

*\*PVC-free shower curtain*

## VANITIES

Scranton Products solid plastic vanity tops combine durability with long-lasting good looks. Offered in a wide variety of colors, our vanities provide an opportunity for you to match your partitions and compliment your overall design.

Our vanity tops have no absorption of water and resist mold, mildew and odors. They are easy to clean and resist soap stains, making them the ideal addition to your bathroom and will provide many years of worry-free performance.

## SHOWER STALL & DRESSING COMPARTMENT COMBO

Our shower stall with dressing compartment combination creates extra privacy for educational and recreational facilities. In addition to all the benefits of our stand-alone shower stalls, solid plastic has no absorption of water and resists mold, mildew, and odors. It also is easy to clean and resists soap stains, making it the ideal material for your shower application.

Floor to ceiling stalls provide occupants with increased privacy and safety, providing ease of mind.

The combo features an integrated headrail designed to accommodate optional curtain hooks and curtains\* eliminating the need for additional curtain rods.

*\*PVC-free shower curtain*

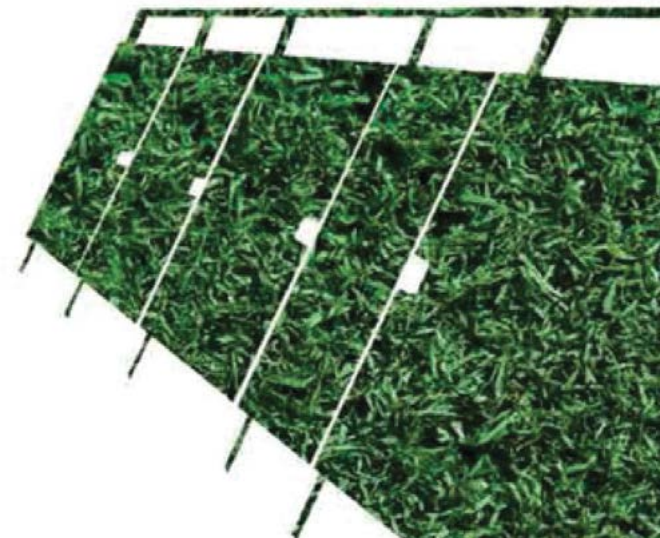

# SUPPORTING A **HEALTHIER** ENVIRONMENT
