What's a synonym?

A synonym is a one to five digit numeric code that identifies each course section. (92 in example above.) You may register for any section by using only the synonym. You do not need any other information when using the synonym.

New! Waitlist Option

You now have the ability to add your name to a waitlist for any class that has reached full capacity. If a seat in the class becomes available, you'll be notified by e-mail. You'll then have a limited amount of time to register for that class.

What happened to the different web sections?

We've made it easier for you by combining them. We offer many web classes and you now may register for **any** web section regardless of where you live. Your bill will be determined by your residency rather than the section.

Location Location Location

This schedule includes all classes at all locations.
Are you looking for classes at a particular campus?
Visit our website at www.allegany.edu and click on the Course Schedules link. You can search by location.
