Purpose and Background

It is a shared responsibility of the students, staff, and visitors of Allegany College of Maryland to promote a healthy, comfortable, productive, and safe campus environment. Reliable medical evidence reveals that smoking and tobacco use is hazardous not only to the health of those who use the products, but tobacco smoke is also hazardous to the health of nonsmokers who are exposed to smoke. Additional health concerns relative to the use of tobacco, tobacco products, and tobacco substitutes include oral cancer, allergic reaction/allergies by non-users who are exposed, communicable diseases which may be transmitted by contact with body fluids and sputum produced during oral tobacco use which can provide the vehicle for infection, and the lack of medical research into the risks, if any, to users and non-users of tobacco substitutes such as e-cigarettes.

Thus, it is the position of the College that the use of tobacco, tobacco products, or tobacco substitutes is harmful not only to the person consuming/using it but also to others. In an effort to promote health and to preserve the working/learning environment of the campus community, all students, staff, and visitors to Allegany College of Maryland are required to comply with the provisions of this policy. In all matters related to the implementation and enforcement of this directive, reasonable priority shall be given to the needs of nonsmokers/non-users.

Allegany College of Maryland's former policy restricted the use of tobacco, tobacco products, and tobacco substitutes to parking lots; this policy was approved by the Board of Trustees in November 2007. Due to ongoing health and enforcement concerns, a Smoke Free Task Force comprised of faculty and staff was appointed in Fall 2011; in Spring 2012, the Task Force recommended that Allegany College of Maryland campuses go tobacco-free.
