FALL 2021 NON-CREDIT TRAINING OPPORTUNITIES

Your Guide
TO LIFELONG LEARNING

A PARTNERSHIP IN EDUCATION

If you have questions or want to register just call: 814-624-4812 | www.allegany.edu
Welcome to our FALL 2021 catalog of training OPPORTUNITIES

We have completed a year dealing with a pandemic and all the changes it has created for everyone, but it's time we get back to good old normal times. We have seen and needed to deal with many changes during this pandemic situation, and as always it is very hard to deal with change. However, we need to realize that change is the one true consistent in our lives; we are changing every single day. When it comes to change we have two choices:

1. We can resist the change and be consumed or lost by the change.

2. Or we can embrace the change and learn to use it to our advantage.

Because of the many changes in technology the options to access lifelong learning opportunities has become much easier and a safe and convenient option during these changing times. We have many online options available both short term and career oriented at these sites: www.ed2go.com/acmpa www.careertraining.ed2go.com/acmpa and at www.alleganytech-gbc.com If you enjoy a traditional face to face class then please review the various class options in this catalog.

Remember: Learning Doesn’t Have An Expiration Date it’s a LIFELONG EXPERIENCE!

Look through this catalog and pick something of interest and I am sure you will find that it will improve you overall quality of life and help you deal with the changing times.

To register for online classes just go to the sites listed above and you can register and make payments directly online.

If you are interested in a face to face class just call Amy Weicht at: 814-624-4812 or complete the registration form on the last page of the catalog and mail it back to us.

**ATTENTION PA Teachers:**

We are an Act 48 Provider!
IS PROUD TO OFFER THE FOLLOWING REAL ESTATE COURSES

Real Estate Fundamentals and Real Estate Practice Courses

If you are interested in gaining eligibility for the PA Real Estate Salesperson state licensing exam, you need to complete both courses. Real Estate Fundamentals is 30 hours and Real Estate Practice is 45 hours. You can start with either, but must complete both. You’ll take one exam per course on the content, and must pass each with a 70% or higher. You will receive a transcript upon completion, which will allow you to apply and register for the state-administered Pennsylvania real estate exam. (other qualifications, include being 18 years of age, holding a high school diploma or equivalent, and submitting a criminal record check, are required for licensure, but NOT for course work or examination.)

Real Estate Fundamentals
Dates: 10/5 to 10/27/21 Tuesdays and Wednesdays
Time: 6:00pm to 9:45pm
Location: ACM Everett Campus
Fee: $195 + Text Book $55 plus tax

Real Estate Practice
Dates: 11/2 to 12/15/21 Tuesdays and Wednesdays
Time: 6:00pm to 9:45pm
Location: ACM Everett Campus
Fee: $270 + Test Book $55 plus tax.

It is suggested, but not required that you sign up for both classes at the same time.

There is a one-time textbook fee of $55 (plus tax) that must be purchased with your first course no matter which one you take first. The textbook will be used for both courses.

To register you need to go to: www.polleyassociates.com/acb
Basic Computers for Beginners (PWT/115)
In this class, you will learn the basics of how to use your computer, even if you have very little or no experience with a computer. The objective of this class is to take you from a level of little or no knowledge of computers to self-sufficiency in using your computer. We will cover such things as keyboard and mouse usage and keyboard shortcuts, using the internet, downloading and installing a program, transferring files, sending receiving email, creating word documents, looking at your photos and being safe using a computer.

Date: Tues., Sept. 28 – Oct. 26, 2021 (5 sessions)
Time: 3:30PM – 5:30PM
Instructor: Staff
Location: BCTC
Fee: $98.00
55+ or Veteran Discount Fee: $88.00

Take classes anytime, anywhere! Our ONLINE classes are convenient, relevant and interactive. There are over 300+ options to pick from listed below are a few samples!

Go to www.ed2go.com/acmpa to register, submit payment and start your class.

Microsoft Excel 2016 Series – 72 hours – $324
A total of 2,712,362 job posts within the last year have listed knowledge of Microsoft Excel as a critical skill for the role, and it's not just within the finance and accounting industries. Everyone from Human Resources professionals to Retail Salespersons are using Excel in their day-to-day functions. This Series combines three Microsoft Excel 2016 courses, to give you a thorough understanding of how to use this software to supplement your career.

Courses include:
• Introduction to Microsoft Excel 2016
• Intermediate Microsoft Excel 2016
• Advanced Microsoft Excel 2016
In this program, you will gain the knowledge needed to successfully use Microsoft's latest version of Excel.

Introduction to Microsoft Excel 2016
(Self-Paced Tutorial) – 24 hours – $129
If you work with numbers, you need to master Microsoft Excel 2016! This hands-on course will teach you dozens of shortcuts and tricks for setting up fully-formatted worksheets quickly and efficiently. You will also learn the secrets behind writing powerful mathematical formulas and discover how to use the function wizard to quickly and automatically calculate statistics, loan payments, future value, and more. By the time you’re done, you will be using this vital Office 2016 application like a pro.
Intermediate Microsoft Excel 2016 (Self-Paced Tutorial) – 24 hours – $129
In this hands-on course, you will learn how to create informative, eye-catching charts and graphs, and harness the power of Excel's data analysis tools and AutoFilter commands. In addition, you will find out how easy it is to create macros that let you manipulate data with the push of a button. You will also discover how to use Goal Seek and Solver and apply them to real-world problems. Set yourself apart from the casual Excel user by adding VLOOKUP, INDEX & MATCH, and other time-saving functions to your repertoire.

Introduction to QuickBooks 2017 – 24 hours – $120
In 12 lessons, you will gain hands-on experience as you master the tools you need to set up a chart of accounts; reconcile your checking account; create and print invoices, receipts, and statements; track your payables, inventory, and receivables; create estimates; and generate reports.

Whether you're new to QuickBooks or have already used earlier versions of this accounting software program, this course will empower you to take control of the financial accounting for your business.

QuickBooks 2017 Series – 48 hours – $199
Whether you're a small business owner or an accountant in need of a QuickBooks refresher, this series of courses will teach you the skills you need to navigate the latest version of the software like a pro.

This series includes Introduction and Intermediate QuickBooks 2017. It covers everything from creating statements to more advanced functions, including batch invoicing and report generation. To take these courses you must have access to QuickBooks program. Enroll today and learn all the new features of QuickBooks 2017!

Drone Pilot Training (PWT-368)
This 8-week course will provide you with the necessary information required to pass the initial FAA Aeronautical Knowledge Test to obtain an FAA UAS Pilot's License with a UAS rating. Students will attend 16 hours of classroom training and 16 hours of actual hands-on Drone flying time during this class. Drones will be furnished for students flying labs during this course. The course will focus on the new rules and regulations regarding the operation of the unmanned Aerial Vehicles (UAV's) operating in the National Airspace under 14C.F.R Part 107. This course is open to anyone looking to safely and legally operate a UAV either commercially or recreationally. This course is offered through our partnership with Eye in the Sky.

Date: Mon. & Wed., Aug. 30 – Oct. 25, 2021 (16 sessions)
NO CLASS 9/6/21 (Labor Day)
Time: 5:00 PM – 7:00 PM
Instructor: Dr. Michael Knapp
Location: BCTC
Fee: $750.00
55+ or Veteran Discount Fee: $675.00
Supervisory Skills 101 (PWT-101)
This is a great program for new, current, and potential supervisors. What usually happens in most organizations is they move their best technical skilled employee to the level of supervisor but fail to give them the needed people skills to be successful at this new level. Don't make that mistake; send old, new or potential supervisors to this course.

TOPICS TO BE COVERED:
- Management Foundation Skills
- Decision Making versus Problem Solving
- Communication Skills
- Motivational Skills
- Leadership Skills and Styles
- Dealing with Change, Conflict and Stress in the Workplace

Due to the current pandemic situation class size is limited to 10 so you need to register early!

Dates: Tues. & Thurs., Sept. 21 – Oct. 7, 2021 (6 sessions)
Time: 6:00 PM – 8:00 PM
Location: BCTC
Instructor: Wayne M. Blue
Fee: $135.00
55+ or Veteran Discount Fee: $121.00

Customer Service – IT'S AN ATTITUDE NOT A DEPARTMENT (PWT-123)
This is one of the best customer service trainings available today. Fish is old wisdom for a new day. When a community of people or workers bring their “whole selves” to work – their personalities, their humor, their desire to make a difference, the effect is powerful, creating a higher quality of life at work and at home. This training is great for both old and new staff members, and if they experienced it once before it's a great refresher session. Join us and learn how to create a service culture that will make your business or organization an outstanding place to work and then some.

Date: Wed. Oct. 6, 2021
Time: 9:00 AM – 11:30 AM
Instructor: Wayne Blue
Location: BCTC
Fee: $75.00
55+ or Veteran Discount Fee: $67.00

ServSafe Sanitation Certification Course (PWT/100)
ServSafe Sanitation Certification Renewal (PWT/203)
The Educational Foundation of the National Restaurant Association has designed the ServSafe course to help managers and employees in food service facilities prevent food-related illnesses. Topics include: purchasing, receiving, preparing and serving food, sanitary facilities, the HACCP system, personal hygiene and safety, Pest Management and Food Safety regulations. The Pennsylvania Department of Agriculture approves this course for the categories of retail, food service and bakery. Books must be picked up in advance.

For ServSafe Renewal you only attend Thursday Oct. 21, 2021
Date: Tue. & Thu. Oct. 19 and 21, 2021 (2 Sessions)
Time: 9:00 AM – 5:00 PM
Instructor: Susan Long
Location: ACM Everett Campus
Fee ServSafe Certification: $175.00 (includes textbook)
Fee ServSafe Renewal: $125.00 (includes textbook)

If you need certified or renewed prior to the class or cannot attend-in person you can purchase a class online through ServSafe. We can test you when you are ready. Just call Amy at 814-624-4812 for cost and times.
Nurse Aide Training (BCT/121)
Begin a new career in the growing Health Occupations industry! Successful completion of this course fulfills the Pennsylvania training requirement, which allows participants to take the Nurse Aide certification examination.

Class will start on August 23, 2021 and meet Monday through Thursday from 5pm to 9:15pm and ending on 10/18/21. Total cost is $800 and class size is limited so start the registration process early by calling Amy Weicht at 814-624-4812 or email aweicht@allegany.edu if you're interested in taking the training and starting the registration process.

Heartsaver First Aid and Adult CPR and AED (PWT-336)
According to the Occupational Safety and Health Administration (OSHA), approximately 4 million injuries and illnesses occur annually in the workplace, and nearly 80 percent of sudden cardiac arrests occur outside the hospital. Heartsaver First Aid CPR and AED is a classroom video-based, instructor-led course that teaches students critical skills needed to respond to and manage a first aid, choking or sudden cardiac arrest emergency in the first few minutes until emergency medical services (EMS) arrives. Upon successful completion of the course, including a first aid, CPR and AED skills test, students receive a Heartsaver First Aid CPR AED course completion card, valid for 2 years.

Date: Sat., Oct. 16, 2021
Time: 9:00 AM - 4:30 PM
Instructor: Jeremy Oldham
Location: ACM/Everett Campus
Fee $90.00 (includes workbook)

Basic Life Support (BLS) Provider (PWT-343)
The Basic Life Support (BLS) Provider Course is a video-based, instructor-led course that teaches both single-rescuer and team basic life support skills for application in both pre-hospital and in-facility environments, with a focus on high quality CPR and team dynamics. This course trains participants to promptly recognize several life-threatening emergencies, give high-quality chest compressions, deliver appropriate ventilations and provide early use of AED. Upon successful completion of the course, including a CPR and AED skills test and a written test, students receive a BLS Provider course completion card, valid for 2 years.

Date: Sat., Nov. 20, 2021
Time: 9:00 AM - 4:30 PM
Instructor: Jeremy Oldham
Location: ACM/Everett Campus
Fee: $90.00 (includes workbook)

Emergency Medical Technician (EMT)
In partnership with Harrisburg Area Community College
This 220-hour blended program teaches entry level skills to provide basic pre-hospital emergency care and function as an EMT. The program covers the following in accordance with the National Emergency Medical Safety (EMS) Education Standards. Anatomy and psychology, assessment of injuries and illnesses (Medical and Trauma), Cardiopulmonary resuscitation (CPR) and Automated External Defibrillator (AED), Environmental, geriatric and pediatric emergencies, Lifting, moving and transportation of patients.

**PARTICIPANTS MUST BE AT LEAST 16-YEARS OLD.**

Date: 10/26/21 to 3/1/21 – Tuesdays
(10/26 Orientation will be Zoom Class)
Time: 6:00 PM - 10:00 PM
Location: ACM Bedford Campus
Fee: $925.00
For additional information, to check schedules and to register go to: www.hacc.edu/emt Scroll down the Emergency Medical Technician (EMT) and open it to scroll down to “View Schedule” and register and when you click on that you will see class locations and will be able to register or call: 717-780-2414.

Handling Medical Emergencies (self-paced tutorial) (ONLINE) COST: $115
This course will identify common medical emergencies affecting children and adults, help you recognize signs and symptoms, and teach you how to render appropriate emergency care. For adults, you will learn how to recognize and manage chest pain, heart attack, stroke, diabetic problems, seizures, breathing difficulty, burns, and allergic reactions. For children, you will also learn about poisoning, fever, childhood illnesses, injuries from accidents, and the signs of abuse. (24 hours of training)
Register online at www.ed2go.com/acmpa

Helping Elderly Parents (ONLINE) COST: $100
Are your parents in their golden years? Learning how to help parents or other loved ones through their transition can prepare us for our own. This compassionate and comprehensive class will give you the tools, techniques, and insights for this passage. Growing older is a part of life. Some aspects are joyful, some bittersweet, some frustrating, some frightening. You will learn what to expect, what to watch for, how to deal with physical and emotional challenges, and where to find resources to help. You'll understand the impact of retirement, learn how to choose a nursing home, and be prepared to deal with death. You'll learn about financial and legal considerations, health issues, and family interpersonal relationships. (24 hours of training)
Register online at www.ed2go.com/acmpa
SKILL TRADES

Basic Industrial Electricity (BCT-178)
Students will gain a basic understanding of the principles of electricity, electronic components, standards and schematics. Class sessions will focus on the following areas: Personal and Equipment Safety, Terminologies, Basic Electrical Principles, Laws and Calculations, AC Principles Wiring, Schematics and Codes, AC Motors, Testing Instruments, Basic Troubleshooting and Repairs.

Date: Mon. & Wed. Oct. 4 – Nov. 3, 2021
(10 Sessions)
Time: 5:30 PM – 8:30 PM
Instructor: Staff
Location: BCTC
Fee: $375.00

Introduction to MIG Welding Skills (BCT-142)
Introduction to MIG Welding (Metal Inert Gas Welding) is a simple, versatile arc welding process that is generally considered to be the easiest to learn of the arc welding processes. Our Basic MIG Welding class is designed for the very beginner or the intermediate welder that needs a refresher. In this class, you will learn principles of welding safety, proper set up of the MIG welding machine and welding techniques/welding joints. There are no prerequisites for this class. Students who successfully complete this class may qualify to take the AWS flat or horizontal welding certification.

Date: Tues. & Thurs., Oct. 5 – Nov. 11, 2021
(12 sessions)
Time: 6:00 PM – 9:00 PM
Instructor: STAFF
Location: BCTC
Fee: $800.00

American Welding Society
WE ARE AN AWS TESTING SITE!
Call us at 814-624-4812 for more info.
CNC Milling and Lathe Operations and Programming (PWT-281)
This 90-hour course is designed to prepare students to become a well-rounded entry level CNC Machine Helper/operator with upward mobility potential. The classes are predominately hands-on training with some theory. The training is a total of 90 hours and is designed around industry recognized credentials based on skills needed for a career in CNC machining and manufacturing. Students completing the program may have the opportunity to earn a NIMS (National Institute of Metalworkers) Certification.

Date: Tues., Wed. & Thurs., Aug. 31 – Nov. 4, 2021 (30 sessions)
Time: 5:30 PM – 8:30 PM
Instructor: Edward Engle
Location: BCTC
Fee: $1,100.00

OSHA 10 Safety Certification for Construction Industry (BCT-200)
The OSHA Outreach Training Program for Construction Industry provides training for entry level workers and employers on the recognition, avoidance, abatement, and prevention of safety and health hazards in workplaces in construction industry. The program also provides information regarding workers' rights, employer responsibilities, and how to file a complaint. Through this training, OSHA helps to ensure that workers are more knowledgeable about workplace hazards and their rights.

Date/Time: Fri., Sept. 24, 2021 from 3:30 PM – 8:30 PM
Sat., Sep. 25, 2021 from 8:00 AM – 2:00 PM
with an hour lunch break
Instructor: Rock Manges
Location: BCTC
Fee: $80.00

State Auto Inspection (BCT-131)
Upon successful completion of this class, you will take the PA Auto Inspection License Exam. Those who pass will receive their Auto Inspectors License.

Date: Mon. – Thurs., Oct. 25 – 28, 2021 (4 Sessions)
Tactile exam date will be schedule by instructor.
Time: 5:00 PM – 9:00 PM
Instructor: Kevin Lawton
Location: BCTC
Fee: $175.00 (includes manual and one category)
Additional categories are $40 each.

Emissions Inspector Certification (BCT-202)
Upon successful completion of this class, you will take the PA Emissions Inspector Certification Exam. Those who pass will receive their initial PA Emissions Inspector License.

Date: Tues., & Wed., Nov 2, & 3, 2021)
Time: 5:00 PM – 9:00 PM
Instructor: Kevin Lawton
Location: BCTC
Fee: $90.00

The Bedford County Technical Center/ACM Workforce Training Center has become an official ASE Testing Site. Individuals interested in obtaining ASE certifications or renewing certifications can go to www.ase.com/myASE or they can call Prometric at 1-877-346-9327 to register.

Once you have registered you must call Amy Weicht at 814-624-4812 to schedule a test date and time.
Stay Relevant (PWT-329)
In this class, you will learn how to shop, save and budget in a modern fashion. It is easy to get overwhelmed with all of the sales, apps, memberships and more that stores use to entice you to buy from them. Learn how to navigate the best apps to save you and your family time and money.

Date: Tues., Sept. 21, 2021
Time: 5:00 PM - 6:30 PM
Instructor: Alyssa Bert
Location: BCTC
Fee: $25.00
55+ or Veteran Discount Fee: $22.00

Yoga (PWT-266)
This series is designed to motivate and inspire you to become your best self. Each class will begin with a short centering meditation allowing you to reconnect with your breath before moving on to our asana (physical posture) sequence to build strength and find mobility in our muscles. We'll end in savasana (relaxation pose) before sealing in our practice together - seated with Namaste. Get ready to meet a more confident, mindful you. Class is open to all levels! This class is BYOM (bring your own mat). Along with your yoga mat you are welcome to bring any props you are accustomed to using in your regular yoga practice, such as blocks or a yoga strap.

Date: Wed., Sept. 8 – Oct. 27, 2021 (8 sessions)
Time: 5:00 PM - 6:15 PM
Location: ACM Everett Campus, Room 13
Instructor: Melissa Moorhead
Fee: $40.00
55+ or Veteran Discount Fee: $36.00
ONLINE Discover Digital Photography – 6 Weeks Access Course -
www.ed2go.com/acmpa
Discover Digital Photography is designed for the novice photographer with no previous experience with digital cameras. This course will teach you all about digital cameras, from DSLRs to smartphone cameras and what different equipment is used for. You will learn about different display methods for your camera, including sizing, print options, online storage, and how social media factors into digital photography. And if you have old slides, negatives, or prints, this course will also teach you how to scan those “old school” photo assets. After completing the course, you will understand how the process of composing photos has changed with the evolving capabilities of digital photography.

Start Dates | Feb 10 | Mar 17 | Apr 14
Cost: $100.00

ONLINE Photography Suite – 72 Course Hours - www.ed2go.com/acmpa
You’ll explore a broad overview of the basics of digital photography, including equipment, software, and practical uses. We’ll discuss different types of digital cameras, from phones and tablets to digital SLRs, all of which offer a wide array of photographic options. We’ll also help you decide what type of equipment fits your needs, and you’ll have hands-on exercises so you can explore the areas that interest you. A discussion of digital photography wouldn’t be complete without digital editing options. We’ll explore a number of software packages, and you’ll learn how to compose your shots when you know you have digital editing available to you. You’ll also find out about your digital storage options—on the camera, the computer, and even beyond into cloud storage and online backups, other topics covered are Mastering your digital SLR Camera and Photographing with your digital camera.

Start Dates | Feb 10 | Mar 17 | Apr 14
Cost: $299.00

Sign-up...

for classes with a friend!
Both of you may qualify for a discount

You can learn together and sometimes only one more student can make the difference in holding or cancelling a class!
This Class "A" CDL program is a six-week program held at the GJCTC in partnership with ACM/BCTC Workforce Training Center. It includes classroom training and vehicle operation training (including driving on two and four lane highways). Students will be eligible to take the licensing exam at the completion of the course. Check with the local Careerlink to see if this training qualifies for WIOA or Trade Funding.

- Call 814-266-6073 Ext. 201 – To learn start date, acceptance procedure, and tuition/fees
- Class runs for 6 weeks
- Classes meet Monday through Friday from 7am to 3pm @GJCTC

ONLINE MACHINING OPTIONS
Training solutions that fit your production schedule

Just call us @ 814-624-4812 or 814-624-4814 to check on pricing and to register, pay and get your login and passwords to start the training process. Each program has a number of modules associated with it that can be completed in 1 to 1.5 hour online sessions and includes a pre and post-test to measure comprehension. Pricing is determined by the number of modules an individual is interested in taking.

**Functional Areas: Machining**

- Abrasives – Grinding Processes, Grinding Variables, Grinding Wheel Materials, Cylindrical, Centerless and Surface Grinding
- CNC Machining – Intro to CNC Mills and Lathes, Mechanics of CNC, CNC coordinates, G-Code, Part Program, Off-Sets and Canned Cycles, CAD/CAM overview
- CNC Controls – Haas/Fanuc/ Mazak: Control panel overview, entering offsets, locating program zero, program execution, and program storage
- Manual Machining – Basics of the Manual Mill and Engine lathe,
- Hole Making on the Mill, Threading and Taper Turning for the Lathe
- Metal Cutting – Band Saw, Cutting Tool Materials, Carbide Grade Selection, ANSI Inserts, Lathe and Mill Geometry, Optimizing Tool Life
- Inspection – Basic Measurement, Tolerance, Blueprint Reading, GD&T, Hole and Thread Inspection, CMM’s and Optical Comparators
- Math – Math Fundamentals, Fractions & Decimals, Geometry and Trigonometry for Manufacturing
- Safety – Intro to OSHA, Machine Guarding, Safety for Metal Cutting, Ergonomics, PPE, Lock-out/Tag-out
Electromechanical Technician Certificate (24 Modules)

The Electromechanical Technician Certificate program provides a complete introduction to electronics and electromechanical systems. This program is often of interest to people who want to study electronics with an emphasis on mechanical systems, for example someone coming from a millwright background. The program covers mechanical topics outside of a typical electronics program, like industrial control devices, DC and AC motors and control circuits, transformers, analog and digital transducers, industrial process control and PLCs.

Similar to the Electronics program, the Electromechanical program integrates the Circuit-Logix and 3D Lab simulators for laboratory exercises.

Program Description

The Electromechanical Technician Certificate, allows the student to work and complete the computer based program at their own pace. The Electromechanical Technician program is divided into 24 modules and similar to the Electronics Technician Certificate program, contains text, animations, mini audio lectures, illustrations, review questions, over 450 pre-built lab projects and practice exams. Six modules extend its coverage into mechanical systems.

Fee: $1,800 or pay as you learn with initial registration of $430 and then pay $60 to register into each of the remaining 23 modules

Electronics Technician (24 Modules)

The Electronics Technician is an award winning educational program that consists of 24 modules of interactive curriculum using text, video, audio, 2D and 3D animations and laboratory simulation software. This multimedia program includes pre-tests, interactive exercises, sample exams and online technical and tutorial support to help prepare you for online computer-based final exams.

The Electronics Technician Certificate program prepares graduates of the program for employment and/or further on-the-job training as a service technician in the field of consumer, commercial and industrial electronics. As well, it will enable students to provide technical support and service during the production, installation, operation and repair of electrical equipment and systems.

Fee $1,800 or pay as you learn with initial registration of $430 and then pay $60 for the remaining 23 modules.
Automation Technician (18 Modules)

The program has been developed for adult learners pursuing training through independent study, specifically students who cannot attend college full-time because of work or family commitments. No background in Automation is required and there are no post-secondary academic prerequisites, so anyone can get training in this rapidly-growing industry. The program includes eighteen modules of interactive curriculum using text, video, 2D and 3D animations, photos, audio clips and interactive lab simulations. Pre-tests, Interactive exercises, sample exams, and online support prepare you for computer-based final exams. The average completion time of the eighteen training modules is thirty-two weeks of part-time study.

The program offers instruction in a wide range of applications and practical examples of automated manufacturing, including both theory and function of digital and industrial electronics, hydraulics/pneumatics, robotic systems, programming languages and alarm management. The three main areas of study in the program are electro-mechanical systems, programmable logic controllers (PLCs), and robotics. The program also offers instruction in distributed control systems (DCS) and SCADA systems. The online course material is delivered using a combination of theory and labs which feature state-of-the-art simulation software (LogixSim). LogixSim is a suite of software products that include electronics, PLCs and robotics simulation.

One of the main features of the program is the integration of theory with laboratory experiments and projects. Students who enroll in the program receive a licensed copy of LogixSim, which includes both 2D- and 3D-simulation software and features CircuitLogix, RoboLogix, PLCLogix, and 3Dlab simulation products.

Fee: $1,850 or pay as you learn with initial registration of $590 and then pay between $60 & $90 for each additional but total cost still remains at $1,850.

PLC Technician I (19 Modules)

The PLC Technician Certificate Program provides a basic introduction to PLCs and focuses on the practical applications of using them in a plant or manufacturing system. This program is designed for students with little or no PLC experience and who require a safe and quick start in the fundamentals of PLC programming.

This program includes PLCLogix 500, our lab simulator that emulates the Rockwell Logix 500 series PLC control software. This simulation software enables you to design, run, test, and debug ladder logic programs and simulate the operation of real-world PLC applications.

Fee: $1,800 or pay as you learn with initial registration of $450 and then pay $75 to register into each of the remaining 18 modules.
PLC Technician II (19 Modules)

The PLCTechnician II Certificate program provides a more advanced study of PLCs in manufacturing including Distributed Control Systems (DCS), Supervisory Control and Data Acquisition Systems (SCADA) and advanced programming languages. This program can be completed without taking the first PLC program however is more challenging to learn since it uses tag-based addressing.

The program includes PLCl ogix 5000, our lab simulator based on the RSLogix 5000 programming applications. It enables you to design, run, test and debug ladder logic programs and simulate the operation of real-world PLC components.

Fee: $1,800 or pay as you learn with initial registration of $450 and then pay $75 to register into each of the remaining 18 modules.

Robotics Technician (14 Modules)

The Robotics Technician training program introduces the concepts of industrial robots and explains how they can be used in a plant or manufacturing system. The primary focus of the program is on automated manufacturing processes, as well as the role of robots and all of their support equipment. Students receive both theoretical and laboratory instruction through a combination of multimedia learning resources and a robotics simulation software package to allow for the programming, testing, and debugging of robot-control programs. Areas of study include motion programming, pick and place, spray painting, arc and spot welding, computer networking, automated sorting systems, vision and tactile sensors and computer integration.

Fee: $1,740 or pay as you learn with initial registration of $570 and then pay $90 for the remaining 13 modules.

To get more details on the above programs and to register just go to www.alleganytech-gbc.com or you can call toll-free at 1-866-300-1347.
Introduces:

Certified Manufacturing Associate Certification

This is an industry-driven nationally portable certification for dislocated workers, new-to-the industry employees and students.

SME, a nationally recognized certifying body in manufacturing, has developed and will offer the Certified manufacturing Associate (CMfgA) Certification in partnership with Tooling-U. The new certification is designed for individuals new to manufacturing who may not currently possess enough knowledge or experience for more advanced technical certifications. This could include high school students, dislocated worker and individuals coming from other nonmanufacturing sectors who wish to pursue an entry-level role as an assembler, manufacturing associate or production worker, among others. The CMfgA credential can indicate to employers that someone is ready to start on a path into manufacturing at the ground level.

The ACM/BCTC Workforce Training Center is working with Tooling-U-SME to offer a certification preparatory program of 25 online classes covering the CMfgA’s Body of knowledge.

For more information on this certification process and the preparatory program please contact Wayne Blue at 814-624-4814 or you can e-mail him at wblue@allegany.edu

ONLINE CAREER TRAINING PROGRAMS
Prepare for employment in some of today's hottest careers with a comprehensive, affordable, and self-paced online Career Training Program. You can begin these Programs at any time and learn at your own pace. Upon successful completion of all required coursework, you will receive a Certificate of Completion.

Categories Include:
• Arts and Design
• Business
• Computer Applications
• Computer Programming
• Construction and Trades
• Health and Fitness
• Hospitality
• Information Technology

INSTRUCTOR-LED ONLINE SHORT COURSES
Our instructor-led online courses are informative, fun, convenient, and highly interactive. We focus on creating warm, supportive communities for our learners.
New course sessions begin monthly, are project-oriented and include lessons, quizzes, hands-on assignments, discussion areas, supplementary links, and more.

Categories Include:
• Accounting and Finance
• Business
• College Readiness
• Computer Applications
• Design and Composition
• Healthcare and Medical
• Language and Arts
• Personal Development
• Teaching and Education
• Technology

A Gift of Education

BEDFORD COUNTY REGIONAL EDUCATION FOUNDATION

Making a difference in the lives of students by awarding more than $1.9 million in scholarship, tuition assistance, and emergency book funding.

MAKE AN INVESTMENT IN OUR COMMUNITY
by supporting the Bedford County Regional Education Foundation. Here are some options that you may want to consider:

- PROVIDE AN ANNUAL GIFT
- CREATE A NEW SCHOLARSHIP
- CONTRIBUTE TO AN EXISTING FUND
- ESTABLISH A PLANNED GIFT

ALLEGANY COLLEGE OF MARYLAND
BEDFORD COUNTY CAMPUS

BEDFORD COUNTY REGIONAL EDUCATION FOUNDATION

REGISTRATION INFORMATION
for further information call (814) 624-4812

In Person
Register in person by visiting the Allegany College of Maryland Center for Workforce Development. Office hours are Monday - Friday, 8:30am - 3:30pm.

By Mail
Complete the registration form in this catalog; attach a check, money order or credit card information and mail to us at ACM BCTC Workforce Development, 195 Pennknoll Road, Everett, PA 15537-6946.

By Phone
Phone registration is available during regular office hours for any customer paying by VISA, Discover, MasterCard, or agency billing. Please have all student, course and billing information ready before calling. The number to register is (814) 624-4812.

By Fax Or Scan
You can fax your registration form if payment by VISA, Discover, MasterCard, or agency billing. FAX cannot be used when paying by check. Please remember to include all information needed for payment when using a credit card or agency billing. FAX to (814) 623-7234 or SCAN to aweich@allegany.edu.

Non-Discrimination Statement: Allegany College of Maryland does not discriminate on the basis of age, ancestry/national origin, color, disability, gender identity/expression, marital status, race, religion, sex, or sexual orientation in matters affecting employment or in providing access to programs and activities and provides equal access to the Boy Scouts and other designated youth groups.

For inquiries related to this policy, please contact:
Dr. Renee Conner, Dean of Student and Legal Affairs
Title IX Coordinator | ADA/504 Coordinator
12401 Willowbrook Road | Cumberland, MD 21502
College Center 12
301-784-5206 | rconner@allegany.edu
www.allegany.edu/title-ix
www.allegany.edu/ADA-504

Allegany College of Maryland is required to inform prospective and current students of important College policies including Non-Discrimination, Title IX, Child Abuse Mandated Reports, Clery Act, Heroin & Opioid, Drug and Alcohol Use, Academic Disabilities, FERPA, Accreditation, and Medical Disclosure Procedures. For full details on these key policies, please visit the Allegany College of Maryland website at allegany.edu/policy-mandates.

Payment Policy:
For all classes, full payment is due one week prior to first class session.

Cancellations:
The Allegany College of Maryland Center for Workforce Development reserves the right to cancel any course that, in judgement of the Center staff, does not have sufficient enrollment. The decision is usually made one week before the first scheduled class meeting, and all registrants will be notified promptly. A full refund is processed automatically. To help prevent cancellations, please register at least one week before class is to begin.

Refund Policy:
An eighty percent refund may be obtained for any student who officially withdraws from a course prior to the second session. Students can obtain a withdrawal form by calling (814) 624-4812.

Who Can Register:
Courses are open to all interested persons 16 years of age or older (unless specifically designed as a youth course). High school students are required to submit a letter of approval from their Principal or Guidance Counselor for any course that is not designated as a youth program.

VISION/MISSION STATEMENT

ALLEGANY COLLEGE OF MARYLAND
Vision - We will be the college of choice that transforms lives, strengthens communities, and makes learners the center of everything we do.

Mission - Allegany College of Maryland is a lifelong learning community dedicated to excellence in education and responsive to the changing needs of the communities we serve. Our focus is the preparation of individuals in mind, body, and spirit for lives of fulfillment, leadership, and service in a diverse and global society. We are committed to engaging students in rich and challenging learning opportunities within a small college atmosphere that is known for its personal touch.
