Covid-19 Post-Positive Information Sheet
“*I have been fully vaccinated. Now what?*”

The purpose of this information sheet is to provide guidance to students and employees who have already been fully vaccinated* for Covid-19. Good for you! Vaccines are everyone’s best defense from getting or transmitting Covid. The need for care/caution is not over, however. Being vaccinated is not immunity. There are still guidelines to follow.

*Fully vaccinated: 2 weeks after your second dose in a 2-dose series or 2 weeks after a single-dose vaccine.

Start with the CDC guidelines:

For now, fully vaccinated people should continue to:
- Get tested if experiencing COVID-19 symptoms
- Follow CDC and health department travel requirements and recommendations

Then follow ACM’s Recommendations:
- Individuals who are fully vaccinated against COVID-19 must still wear a face mask or covering indoors and outdoors on campus when in a crowded setting.
- Everyone should maintain social distance of at least 3 feet with preference of six feet when in crowded indoor and outdoor settings.
- Everyone should continue to self-monitor for symptoms of illness, sign attestations, and adhere to recommended CDC protocols. Sign-in procedures for contact tracing are required for all.

If you have any exposure, symptoms, or test positive, you must notify the College so we can take the necessary steps to protect you and the campus community. You will be contacted by the appropriate Covid Command Team Intake Official. Please cooperate with that information gathering process, and follow all directions.

Remember that even though you have been vaccinated, you still MUST complete your daily symptom monitoring before coming to campus AND complete the attestation before starting work, attending each class, visiting offices, or using college services; your attestation must be a true and accurate statement. Any false attestations could prompt disciplinary action. Coming to campus if you are sick, are positive, or have been exposed to Covid could prompt disciplinary action.

Never come to campus if you have symptoms, are positive, or if you have been exposed to COVID-19 unless you have been cleared by an ACM Command Team Intake Official.
