

Dear Colleagues:

For the majority of our ACM faculty and staff who work at our Maryland or Pennsylvania campuses or extension sites, **staying home to stay safe** means that very few have seen the changes underway at our main campus within the last month. In lieu of my usual weekly COVID-19 update today, I've decided to bring our ACM Cumberland campus to you.

I hope this [video](#), shot with social distancing measures in place on a windy day, brings you a moment of Trojan Pride. I look forward to the time when I can personally welcome you back to campus and share in the camaraderie of our ACM family.

With warmest wishes,
Dr. B.
