

Pennsylvania Students- please read!

Have you activated your **GrantUs** account yet? If not, this is a crucial step to complete in order to receive the PA State Grant (providing you have completed the FAFSA by the appropriate deadline – June 1st for renewal applications and August 1st for first-time applicants).

Once you have completed your FAFSA, you should have received an email from **NoReply@grantus.pheaa.org**. This email has a time sensitive activation link in it. If you did not access the email before the activation link expired, use the link from the email to access *GrantUs* and choose **Forgot Password** to go through the setup process.

First-time Applicants: After activating your *GrantUs* account and completing your PA State Grant and High School forms, PHEAA will contact you via email if they need additional information. Requests for additional information will be in *GrantUs*, on your **Action Items list**. Please respond to those requests as soon as possible.

Renewal Applicants: After you activate your *GrantUs* account, you should not need to complete any additional items. If PHEAA needs more information from you, they will send another email asking you to log in to *GrantUs* and review the request. Requests for additional information will be in *GrantUs*, on your **Action Items list**. Please respond to those requests as soon as possible.

Please check out the [FAQ](#) PA State Grant Program site if you have further questions, or need assistance with the process!

PHEAA Contact info for students and parents:

Phone: 1-800-692-7392: M-F, 8:00 am -5:00 pm (EST)

Email: granthelp@pheaa.org

Thank you for your patience as we navigate this new process together!
