

INCLEMENT WEATHER POLICY FOR ALLEGANY COLLEGE of Md. STAFF

REPORTING POLICY ON DAYS OF INCLEMENT WEATHER FOR FACULTY AND STAFF

When classes are delayed or canceled due to inclement weather, all full-time, part-time, and regular hourly administrative, professional support staff, and support staff are expected to report at their regular starting times. When adverse weather/road conditions exist, personal discretion may be used. Every reasonable effort should be made by each staff member to make the necessary travel arrangements to arrive on-time to the campus within the bounds of safety. (Liberal leave, through use of employee-initiated vacation time, can be utilized when the employee cannot comply with this policy.)

Radio announcements usually will refer only to the delay or cancellation of classes. Unless the radio announcement or the college recording indicates to the contrary, all non-teaching staff are to report as usual on these days.

Faculty using Interactive Distance Learning, please refer to the Inclement Weather guidelines in the "Student and Faculty Support Handbook for courses delivered via Interactive Distance Learning Technologies" section.

All staff, including members of the teaching faculty, who have activities or meetings scheduled to occur prior to the time classes will officially start for the day, are expected to attend such activities/meetings.

Staff should park their vehicles in any parking lot that has been cleared of snow or areas so designated by the physical plant crew for staff parking.

Decisions for day classes will be made by 5:45 a.m.

Decisions for evening classes will be made by 3:00 p.m.

WEATHER ANNOUNCEMENTS WILL BE MADE ON THE FOLLOWING STATIONS:
