ASPIRING YOUNG MENTORS INDUCTION CELEBRATES PEER ACADEMIC COACHING

PHOTO CAPTION== Allegany College of Maryland's Aspiring Young MENTors (AYM) were celebrated in early May. AYM's inaugural cohort is comprised of ACM students and recent graduates who are trained to serve as mentors to male students who may be struggling academically. With their focus on overcoming obstacles and barriers, the mentors seek to encourage male ACM first-semester or first-year students to remain in school and complete their academic or career goals. The Aspiring Young MENTors initiative is funded through the college's micro-grant program.
