

Allegany College of Maryland
Physical Therapist Assistant Program
Phase II Clinical Application Advisement

Regarding **Phase II Observation Hours** in the clinic for any advisees:

There is a good possibility that prospective students will be unable to complete their required application observation hours. If this is the case, we ask that the student submit all parts of the application including what hours have been completed thus far prior to the April 15th deadline. If the student has completed zero hours in a setting, we ask that he/she still submit the form and write on it, "unable to complete due to COVID-19".
