### Statewide and Health Manpower Shortage Programs.

*Maryland Residents (other than Allegany County) are eligible for In-County Tuition.*

The Physical Therapist Assistant at Allegany College of Maryland has been designated as a Health Manpower Shortage Program. The Maryland State Department of Health and Mental Hygiene has determined certain health occupations to be in short supply. The Maryland Higher Education Commission has designated educational programs that correspond to these health occupations to be eligible for Health Manpower Shortage Program. Maryland residents from counties other than Allegany who register in this eligible program will be charged the out-of-count tuition rate. However, these students may be eligible to receive reimbursement for a portion of the cost difference between the in-county and out-of-county tuition rates. Funding availability for this program is based on funding from the State of Maryland and is thus subject to change each semester. Some restrictions apply. Application for Health Manpower must be submitted to the Admissions Office each semester the student would like to be considered.

A variety of financial aid services are available through the college. Contact (301) 784-5213 for additional information including deadlines.

In addition to tuition subsidies and other special rates, students can qualify for Federal Financial Aid and for Foundation Scholarships.
