

Dear [Student Name],

Welcome back from Spring Break! I hope you had the chance to recharge. I have a few updates to share.

ACM will no longer require individuals to wear face masks indoors in the presence of others. This decision, effective immediately, is based on local COVID-19 data and current guidance from the [CDC](#). If our region experiences a surge in cases, it's possible that a masking mandate will be reinstated.

Choose what works for you.

- You may elect to wear a mask on campus. The choice is yours.
- Please be respectful of others and their choices.

Report and protect.

COVID-19 isn't over. To protect you, your family and friends, and our community, we continue to require everyone to:

- [Self-check](#) for symptoms daily.
- Attestations and sign-in procedures for case management remain in place.
- **Report symptoms, exposure, and positive COVID-19 tests immediately by calling 301-784-5061 or emailing covidreports@allegany.edu.** You may be asked to stay away from campus.
- Contact your instructors if you're asked to stay home.
- Continue to social distance and follow our existing [COVID-19 mitigation measures](#).

Keep achieving, Trojan.

Use your return from Spring Break to reset and work towards your graduation plan.

- Get extra help through [Learning Commons](#) services like Study Labs, in-person and online tutoring, the RAWC, and more.
- Connect with [Academic Access & Disability Services](#) to access accommodations and resources.
- [Assess](#) your current needs and learn about available support options.
- Register, beginning Monday, April 4, for *summer session* classes (full-term or shorter A and B terms) or the *fall semester*. Contact the [Advising Center](#) at 301-784-5654 or jengelbach@allegany.edu if you have questions.

Warm regards,

Dr. Cynthia Bambara
President, Allegany College of Maryland
