Connecting an Android Device to the ACM Wireless Network

Menu options and network settings may differ based on device and version.

Before you start:

► You must be aware of and abide by ACM Technology Policies
► You will need your ACM Self-Service credentials in order to connect to ACM Wi-Fi.

*If you are not a student or ACM Faculty/Staff member, you may connect to the ACM Guest Network

► On your device, navigate to Settings, then choose Wi-Fi
   *name may differ depending on device, Wi-Fi may be found under Connection, Network, Internet, or Wireless

► Confirm that Wi-Fi is set to On

► ACM should be automatically detected if you are in range/on campus

► Select ACM

► Select the following:

  ► EAP method: PEAP

  ► Phase 2 authentication: MSCHAPV2

  ► CA certificate: Do not validate
    *depending on device, you may need to first choose "Use System Certificates, then "Do not validate”

  ► Domain: allegany.edu
    *on some devices, clearpass.allegany.edu may need to be entered in the domain field

► Enter your ACM Self-Service username in the Identity field
► Enter your ACM Self-Service password in the Password field

  (If a field for “Anonymous Identity” appears, it should be left blank)

► Tap Connect

► ACM should now show as Connected in your wi-fi list
